

KALABRONE MINI is the new shelf support for free-standing shelves created by Italiana Ferramenta Srl. Boasting a captivating design, it perfectly meets the actual market demands. It is suitable for shelves from 5 to 10mm thick. Its solid structure guarantees a capacity loading of 6 Kg, including the weight of the glass shelf, for each support with a shelf 150mm deep.

KALABRONE MINI comes with a vertical adjustment through the oval hole positioned on the upper bracket.

The soft element made of engineering plastic positioned on the upper and the lower bracket guarantees a perfect adhesion to the shelf, thus avoiding that the shelf is accidentally removed.

REGISTERED DESIGN

| Part no | Finish | Engineering plastic |
|------------|------------------------------|---------------------|
